

Innovation

I decided to add a new page that allowed a user to add new users to the MySQL database. When adding the new user, it'll add it to the employee's table and emp_dept table.

Add Employees (MySQL)

EID	Name	Role	Salary
E001	Tommy	Manager	55999.1
E002	Anne	Employee	51100.09
E003	Mary	Employee	52220.29
E004	Alan	Employee	60220
E005	Cathy	Manager	71500.12
E006	Brian	Employee	71500.12
E007	Pat	Employee	49500.83
E008	Marion	Manager	69500.83
E009	William	Employee	47700.22
E010	Barry	Employee	45700.22
E011	Damien	Employee	72750.51
E012	Alan	Employee	52750.51
E013	Thomas	Manager	72750.51
E014	Mary-Ann	Manager	68751.53
E015	Shane	Employee	49751.5
E016	Seamus	Employee	47751.5
E017	Fiona	Employee	47731.53
E018	Deirdre	Employee	55731.63
E019	David	Employee	59731.99
E020	PJ	Employee	55433.39
E021	Jack	Employee	58433.88
E022	Kevin	Manager	77433.08
E023	John	Employee	80423.03
E024	Neil	Manager	48424.73
E025	Martina	Employee	47490.71
E026	Anna	Employee	54410.41
E027	Jimmy	Manager	50000
E028	Jimmy	Manager	50000

[Add Employee](#)

[Home](#)

When you click the “Add Employee” button, a form is sent to the client.

[Add Employee](#)

[Home](#)

Employee

EID Ename Salary Role Department

When a user fill's out the form and the clicks the “Add”. First the general info is inserted into the employee table, then the “eid” and “did”, is inserted into the emp_dept table.
